A Natural Food That Does Not Require Digestion.

THE WAY IT IS DONE.

How Mixing With Fruit Acids Digests Food Before It is Even Taken Into the Mouth.

Natural foods are, as a rule, insoluble. They must be dissolved before they can be absorbed. Digestion is the dissolving of food in our mou omach and intestines. It is done by special ferments prepared by special organs. A great deal of energy is used up in digestion. Well people can spare the energy, sick people cannot. People who have not sufficient energy

It is plain that Paskola, which is an artifleially ligested food, will save a sick person a great deal Artificial digestion is the dissolving of outside the body by the same ferments that dis-solve it inside the body. Paskola is a fattening food, made of grains and fruit that has been di-gested in this way. It also aids in the digestion of other food. of other food.

Sick people need all their energy to get well. They should take Paskola. Thin people spend their energy in business or other cares and worry. Paskola will make them fat without giving their digestive organs any work.

Paskola is an ideal natural fattening food. It is more. It is a natural tonic food that does not create false new energy, but helps you to husband what you have.

MIAMISVILLE, Ohlo, August 16, 1894.

Dear Friends: And you have indeed been friends to me, as you would be convinced if you could have seen me last summer at this time and see me now. For three years I have been treated by the best doctors in Indiana and Ohlo. I would get relief for a while, but only to get worse again. When I commenced to take Paskola I did not think that it would do me any good, and had nade up my mind to quit taking medicine and let nature take its course, when one of your little books was thrown in my way, and I asked my husband if I could try it, and he is surprised with the result. I have taken four bottles, and today I never felt better in my life. I do not know how much I have gained in fiesh, but every one says I look so much better.

I have advertised it well here, and several have tried it, and are much pleased. I can eat anything I want and sleep at night like a log. I cannot say enough of Paskola and also of the tablets. They are just grand. I wish I could convince every one of its merits; they would certainly us it.

I remain your friend,

Mrs. FRED. GROVES.

You can obtain Paskola of any good druggist, and a free pamphlet will be mailed by the Predigested Food On., 30 Reade street, New York.

Another Democratic Congressional Nomination to Be Made.

UNCERTAINTY IN THE FOURTH DISTRICT

Reports From Throughout the

HOPES OF J. HAMPTON HOGE

Special Correspondence of The Evening Star.

RICHMOND, Va., September 17, 1894. The democrats have made one more conressional nomination, leaving but one district without a nominee; this is the fourth, where they have been rather slow in getting together owing to the uncertainty of the situation. The democratic nomina tion made this week, that of Representative D. Gardner Tyler, in the second or Norfolk district, was quite significant, although not altogether unexpected. Mr. Tyler had strong opposition, and a number of disinterested observers predicted defeat for him. It seems, however, that he had mended his fences admirably and went through, being ominated on the first ballot.

Col. J. Fenton Day, the father of the prospective bride of Senator-elect Martin, who was a candidate for the nomination, did not develop as much strength as was expected. It was thought that Col. Day would be Mr. Tyler's strongest opponent, but the result shows that he was third in the race. From reliable sources it seems that the men who are in the ascendancy in the democratic party were backing Col. Day. This single victory places Mr. Tyler in the front ranks of the shrew politicians in Virginia. His district is one of the most difficult to control in the state, especially when his own party is in control of the federal government. There are always many dissensions growing out of the federal patronage in the Norfolk navy yards, and in the marine stations along the coast. Mr. Tyler has distributed this patronage in a most judicious manner, and seems to increase continully his popularity.

As to the party opposition in this district, little can be ascertained as yet. Neither the republicans or the populists have as yet nade nominations, and it is not known as yet whether or not they will place candi-dates in the field. This district, up to four years ago, has always been conside pears ago, has always been considered as a republican district, comprising, as it does, a portion of the black beit, and embracing a large protective constituency. This is one of the districts which the late John S. Barbour, when he was chairman of the party, advised his associates not to waste their energies on, as he considered that they would be useless.

irman J. Taylor Ellyson, however, when he assumed the position of chairman of the democratic party, made an effort to wheel it into the democratic column, which effort has proven decidedly successful. Mr. Ellyson is one of the men who does not believe in surrendering without a fight, and never concedes anything to the opposition, but works as if he intends to always win. but works as if he intends to always win. There is talk of a fusion candidate in this district between the populists and prohibitionists, as is the case in the sixth district. It is believed by the prohibitionists that Norfolk city can be carried by their party in the congressional fight. It will be recalled that the prohibition reform movement sweet Norfolk city care. called that the prohibition reform movement swept Norfolk city recently in a municipal fight. Mr. Ellyson, however, does not believe that Norfolk will ever again vote with the prohibitionists, especially in a congressional fight. The recent municipal election was a reform movement in opposition to an objectionable "ring" who had control of the city government, and which was overthrown. These reformers now, it eems, are satisfied and will hereafter vote the ticket of their fathers.

But one thing is certain to a careful observer, and that is Mr. Tyler will not have a walkover if the opposition to him can agree upon some one good man. It is not believed, however, that the opposition particle will do the provide the company that the opposition particle will do the provide t ties will do this, as the populists, with one exception, have always refused to enter into fusion with other parties. Their refusal to do this will certainly lose for them success in many instances this fall.

On Thursday last Col. J. Thomas Goode

On Thursday last Col. J. Thomas Goode of Mecklenburg county was renominated by the populists in the fourth district. This was quite an agreeable surprise to the democratic leaders, who had expected the populists to remain silent and give their indorsement tacitly to Mr. R. P. Thorpe, the republican nominee. Mr. Thorpe was in the field early, and it was said had based his house of success, upon some sorts of in the field early, and it was said had based his hopes of success upon some sort of fusion with the populists. There can be no doubt about the fact that Col. Goode will poll the full populist strength in this district. It is equally certain that Mr. Thorpe will receive all the republican votes. This being the case, great encouragement is given to the democratic party, who hope through this splitting of the strength of the opposition that their candidate will win.

Democratic Convention on Wednesday The democratic convention in this district will meet next Wednesday, the 19th, h. Petersburg to select their candidate. This will complete the democratic congressional ticket in Virginia. From present indications it is a foregone conclusion that Mr. W. R. WcKenney will be the choice of the convention. The democrats could not settle upon a stronger man than McKenney. He is a young lawyer of markas a speaker. He is an earnest, zealous worker, and in addition, a man of brilliant attainments. His friends in Petersburg, without exception, say that if he is nominated he will be elected by the largest majority yet given to a democratic candidate jority yet given to a democratic candidate in this district.

in this district.

The populists, however, claim that Col. Goode will certainly be elected. They say that there is a large majority of populists and disaffected democrats who will support their favorite. Nearly all of the fourth district is in the "black belt," and the questions who have the regression. district is in the "black belt," and the ques-tion turns upon the fact who the negroes will vote for. Thorpe's friends say that they will vote for him, which seems most likely, but Goode's friends claim also a number of their votes. At any rate, from the peresent outlook, the negroes hold the key to the situation in the fourth.

A Vindication for Col. Goode. The populists here are very much stirred up over what they claim is continual fraud in elections in this district. They claim that Goode was elected by a clear majority two years ago when he ran against Representative Epes for Congress. As an indication of their feelings on this subject the following from the resolutions adopted by their convention on last Thursday, which nominated Goode, shows:
"Whereas, the people in convention assembled in Petersburg in 1892 nominated Col. J. Thomas Goode for Congress from

this, the fourth, congressional district, and whereas, in November, 1892, the voters of this district elected him by an overwhelming majority, as shown by the returns made to the clerks of each county, and whereas, the commissioners of said counties, to carry out the plain letter of the law, and in violation thereof by throwing out a large number of the precinct votes, did fraudulently deprive Col. Goode of his certificate of election, which is now known and believed by all the citizens of the fourth congressional district, irrespective of party; therefore, we, the committee, recommend to the convention that Col. J. Thomas Goode be renominated for Congress, and that we call upon the voters of the fourth congressional district, irrespective of party, to elect him in November next,

The New Election Law. The populists claim that the new Australian ballot law which was adopted by the recent session of the legislature and which will be given its first thorough test this fall, is no better, if as good, as the old Anderson-McCormick law. They claim that whereas the old law allowed fraud to go on without any hope of detection the present one legalizes fraud, and that the democrats will avail themselves of this golden opportunity. There is marked dissatisfaction among the populists in Vir-ginia over the present election law. They say that honest elections in Vir-

lature as their only hope of securing hon-

lature as their only hope of securing honest elections.

The Times, which by its fight last winter for ballot reform won for it the name of the organ of purity at the ballot, is looked to by this dissatisfied element for still greater reform in the old methods of election in Virginia. The Times is very likely to lead another fight on this line when the next legislature meets. Soon after the present law was adopted the owner of the Times, Mr. Bryan, stated that he would wait and see the operation of the new law, and if it did not come up to expectations further reform would be demanded.

The situation shows no improvement for the democratic party in the sixth district. This is the district where the prohibitionists and populists have fused upon a candidate, who is making great inroads upon the democratic strength. Mr. Rucker, the fusion candidate, is meeting with marked success, and from the present outlook there

success, and from the present outlook there is good reason for his hopes of success. Major Otey, the democratic nominee, is leaving no stone unturned to keep the district in the democratic party, but that he has a hot fight is apparent to every one.

Senator John W. Daniel, who is personally responsible for Major Otey's nomination, is making a hard fight for his friend, and will devote nearly his whole time during the campaign in the sixth district. major Daniel is making powerful speches in every hamlet and at every county seat in the district. He has a long list of appointments for the campaign and nearly all of them are in the sixth district. He spoke at Radford Saturday to a large crowd and speaks at Salem in Roanoke county to-J. Hampton Hoge's Hopes.

Some of the democratic leaders think that Col. J. Hampton Hoge, the republican nominee, has a better chance of success than Rucker. They say that Rucker will draw nearly all of his strength from the democratie party and that Hoge, polling the full republican vote, may possibly win. Hoge is not making as active a canvass as he promised to do, but says he will make hav from now on. The feature which is very favorable to

Maj. Otey's success is the generous act on the part of John Goode, who was Maj. Otey's opponent for the democratic nomina-tien. Mr. Goode has gone on the stump for Otey and has eleven appointments to speak in the district between October 8 and Octo-ber 24. Mr. Goode can do more for Mr. Otey's success in two of the counties in this district than any one else. These counties are Bedford and Halifax, where there is considerable disaffection among the democratic party growing out of Mr. Goode's defeat.

The Star correspondent is informed by the democratic leaders that the chances are brightening in the fifth district where there is also an uphili fight for democracy. Mr. Swanson, the democratic nominee, who is perhaps the most energetic politician in Virginia, is making a vigorous and almost unceasing fight. Scarcely a day passes that he does not mount the stump in his own behalf. He is meeting Judge Cornett, his republican and only opponent in the dis-trict, at every turn, and is holding his own remarkably well against the brilliant champion of republicanism. The fact that the populist candidate in this district has with-drawn makes Cornett's chances much drawn makes Cornett's chances much stronger and Swanson's correspondingly less. Mr. Swanson has induced Gov. O'Ferrall to make three speeches in his district, and it is said will have several democratic members of Congress of national reputation to come down and help him. He has a hard fight to make and he knows it, and is availing himself of every opportunity to enlighten his constituents.

In the Ninth. Chairman Ellyson, who has just returned

from the ninth district, where Gen. Walker. the republican nominee, is waging a solid fight against the democratic candidate, Judge Morrison, says the outlook is very bright for the latter's success. He says all of the dissensions in that district have been healed and that Motrison has a much better chance of vinning than had Mr. Marshall two years ago. The friends of Gen. Walker, however, say that their man will

ing each other in joint debate or reens of the district. Representative Geo. D. Wise, who was defeated by Mr. Ellett for the democratic nomination, will return here in October and make several speeches for Mr. Ellett, after which it is said Mr. Wise will make his home either in Wash-ington, D. C., or in San Francisco, probably

SOME CAPON EVENTS.

The Annual Fish Fry One of the Most Successful Ever Held.

Young Democrats Denounce Gorman. At the meeting of the Young Men's Democratic Club at Boston last night resolutions were adopted declaring that the club denied the right of Senators Gorman, Brice, Smith and Murphy to represent the democratic party, and demanded their removal from all positions of trust and honor within the party, as being grossly faithless to party pledges.

It was also declared "that It is the part of true democracy to demand the immediate abolition of every duty which gives a special protection to any trust or combination. and especially of all discriminating duties in favor of the sugar trust. BRECKINRIDGE GIVES UP.

The District Committee Will Not Go

Behind the Returns.

Everything was quiet at Lexington, Ky., last night, the nomination of William C. Owens for Congress to succeed Col. Breckinridge being conceded, but it was a most exciting day. The friends of Mr. Owens were alarmed at the activity of the agents of Col. Breckinridge in collecting evidence of Col. Breckinridge in collecting evidence throughout the district preparatory to a contest before the democratic congressional committee, which will meet at Frankfort on Saturday to count the vote and declare who is the nominee. This committee was understood to stand six for Breckinridge and four against him.

It was promptly announced that four members of the committee would make a minority report Saturday and appeal to the democrats. This meant that Mr. Owens and Col. Breckinridge would be candidates and

fight to a finish in November.

In the meantime the republicans, who hold their convention at Lexington September 26, began to regard their unnamed nominee as the favorite, and there was much excitement.

The tide was turned in the afternoon when B. J. Welsh, the committeeman from Col. Breckinridge's home, and one of his gest supporters, announced that he would never vote to go behind the returns when the committee met at Frankfort.

As this would leave the committee a tie, or five to five in any event, and as other Breckinridge men on the committee who stood by him to the last were not dispose to go behind the returns, the friends of Col. Breckinridge gave up the struggle. They will not, however, concede the plurality of 52s which the friends of Mr. Owens claimed last night from complete returns.

Among Col. Breckinridge's strongest friends are the nominees on the county ticket, and they, as well as other county

candidates, were not disposed to hazard their interests by assisting in throwing out any of the Owens precincts at Frankfort next Saturday.

It is not likely that there will be any more

M. Lockroy says that when the subcommittee inspected the torpedo fleet at Tou-lon only five of the fifty-one torpedo boats were ready to sail if there was immediate necessity to send them to sea. He adds that defective plates have been furnished from the Creuzot works, and that many boiler explosions have been caused by the

SUGAR PLANTERS BOLT. Louisiana Democrats Go Over to the

Republicana The sugar planters' convention at New Orleans yesterday was a large and enthusiastic assemblage. There were present not only the leading planters of Louisiana, but some of the most representative men of New Orleans.

The convention went over to the national republican party in a body. Mr. E. N. Pugh called the meeting to order and ex-Naval Officer Kernochan was made temporary chairman, and ex-Mayor Behan permanent chairman of the organization, all three of the gentlemen having been heretofore prominent democrats. The resolutions indorse the platform of

the meeting in New Orleans; express belief in the doctrine of protection to all American industries; declare that the people had never asked Congress for a bounty, but that when the bounty law was passed it was regarded as a pledge for fifteen years and caused the mortgaging of plantations and expenditure of immense sums of money in the purchase of modern machinery and in making elaborate improvements for the manufacture of sugar; urge the organization of club committees and conventions throughout the state with a view to electing members of Congress who will stand by the national republican party in the organization of the House, and finally declaring that the causes which have led to the inauguration of this movement are of a financial and industrial nature, and that the character and standing of its leaders is a sufficient guarantee that that party will ever advocate good government for the whole people of the state.

The president is directed to appoint a committee of thirty-five, with the full powers of the convention, to be known as the state committee of the national republican party. making elaborate improvements for the

· SAVED BY THE FATHER. Farmers Wanted to Lynch a Man Who Had Assaulted a Child.

Little Carrie Sheppard was assaulted by a worthless fellow in Somerset county, N. J., the other day. Suspicion pointed to Gus Philhofer, who was caught, and brought before the little girl, who identified him. "It's proved, it's proved! Let's lynch him!" cried many voices, and there was a threatening shuffling about the room. Then Farmer Sheppard got up. He was as pale as a ghost, and his voice trem-

"Friends," said he very quietly, "I've lived in this county nigh on to fifty years, and I've been a law-abidin' man. My father lived here before me, and he allers upheld the law. Now, let the law take its course. There's plenty of law in Jersey to avenge my child."
So they took Augustus Philhofer over to Somerville jail and locked him up.

EVERYTHING SEEMS WRONG to the dyspeptic. The world is upside down; the times are out of joint; he's ready to turn his

times are out of joint; he's ready to turn his back upon his best friend.

Now, the thing that oftenest is wrong with dyspeptics is their choice of a remedy. There are drugs and medicines on the one hand—the Carlsbad Sprudel on the other. They can't both be right; there's too much difference in their methods and in their results.

ods and in their results.

Carlsbad—the waters of the Sprudel Spring at Carlsbad—have been curing dyspepties for hundreds of years. Curing them. No remedy in the world has been so thoroughly tried and proved in all digestive disorders, stomach troubles, lack of appetite or perverted nutrition. Add a little of the genuine Carlsbad Sprudel Salt to the first tumblerful of the water, if you desire to increase its purgative action.

Do not be imposed upon by unscrupulous dealers, who will sell you a mixture of Scidiltz Powder or Glauber Salt as "Improved Carisbad Salt" or "Artificial Carisbad Salt," "German Salt" or other names. Insist upon the genuine article, which must have the signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

DRINK OBESITY FRUIT SALT.

In a recent article published in the Boston Globe, Dr. Wm. H. Holmes, Massachusetts General Hospital, writes: I use Dr. Edison's Obesity Pills one day and the Obesity Salt the next, and obtain excellent results. I am losing a pound a day, almost twice as much as I did using the pills alone. The Fruit Salts are just what my system requires to reduce fat. I analyzed the saits, and found them to be the best material and like the formula on the bottle. Your repodies are all right. I hear of several physicians prescribing the Fruit Salt as a fieth reducer and a delightful hot weather beverage for old and young. It prevents fevers and cures summer complaints.

Surgeon John H. Lincoln, Cunard Line, writes:
"I can prescribe your Dr. Edison's Obesity Pills and Salt to all my friends who are too heavy, as I have reduced my weight 68 pounds in 23 weeks. The Fruit Salt is the best summer drink I ever used. Everybody uses your Fruit Salt."

MISS GOLET, NEWPORT, R. L., WRITES:
My physician. Dr. Barstow,5th avenue, prescribed
your Obesity Pills and Obesity Fruit Sait for corpulcacy. I have lost uincteen pounds in twenty-four
days on one bottle of pills and half a bottle of
Fruit Sait. I do not suffer any more from the heat
while using the sait. It is sweet and delicious,
and lowers the temperature of the body. I see
everybody using the Fruit Sait as a drink. I wish
you had introduced it sooner.
